

# Applying styles

# style tags

```
class Card extends HTMLElement {
  constructor() {
    const styleTag = document.createElement('style');
    styleTag.textContent = `
      :host {
        background-color: #fff;
      }
    `;
    const shadowRoot = this.attachShadow({ mode: 'open' });
    shadowRoot.appendChild(styleTag);
  }
}
```
