

Slots: author experience

Author's code

```
<the-card>
  <h3 slot="heading">...</h3>
  <p>...</p>
  <p>...</p>
  <button slot="favorite">...
</the-card>
```

**My card heading is
awesome**

Default slot content is so
flexible that I can put any
elements in here that I want!

Slots: targeting styles

Template

```
<the-card>
  <h3 slot="heading">...</h3>
  <p>...</p>
  <p>...</p>
  <button slot="favorite">...
</the-card>
```

Styles

```
:slotted(p) {
  color: #000;
}

:slotted([slot="heading"]) {
  color: #444;
}

:slotted([slot="favorite"]) {
  color: #e50000;
}
```
