

Definitions

Developer

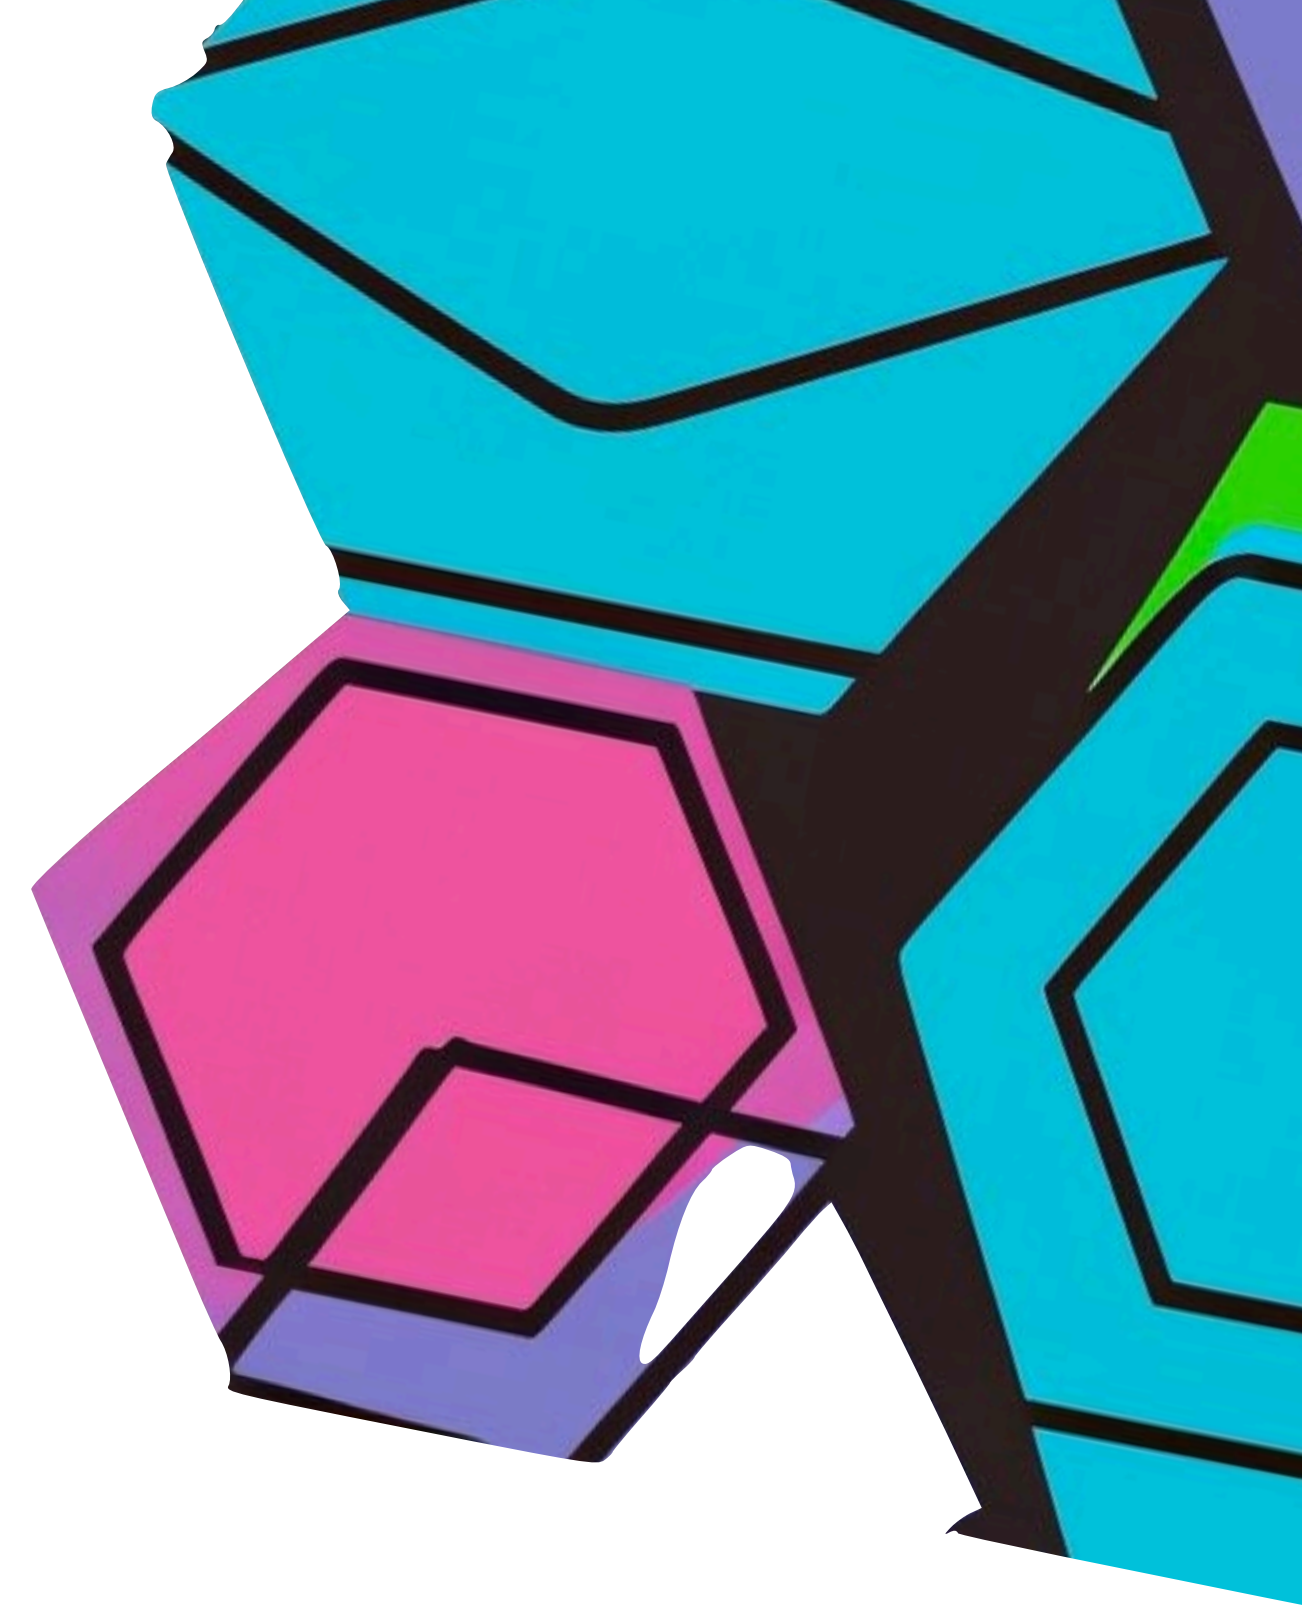

Person (or possibly machine 🙋) building the web component.

Author

Web components “user”; the person using the web component you have built in order to author a web site.

User

Person who engages with the final rendered web page.

```
class Card extends HTMLElement {  
  · constructor() {  
    · · super();  
    · · this.attachShadow({ mode: 'open' });  
    · }  
  
  · static get observedAttributes() {  
    · · return [];  
    · }  
  
  · connectedCallback() {  
    · · this.shadowRoot.innerHTML = `  
    · · · <style>  
    · · · · :host {  
    · · · · · display: block;  
    · · · · }  
    · · · </style>  
    · · · <slot></slot>  
    · · `;  
  
    · · // add event listeners  
    · }  
  }  
}
```
