Custom Element

Custom built-in

```
<p is="word-count">  
  · · To sit in solemn  
  silence on a dull dry  
  dock...  
</p>
```

Autonomous

```
<word-count>  
  · · <p>To sit in solemn silence  
  on a dull dry dock...</p>  
</word-count>
```

Customized built-ins

Inherits from HTML elements by extending the element class that correlates.

```
class WordCount extends HTMLParagraphElement { . . . }
```

```
customElements.define("word-count", WordCount, { extends: "p" });
```
