My card heading is awesome
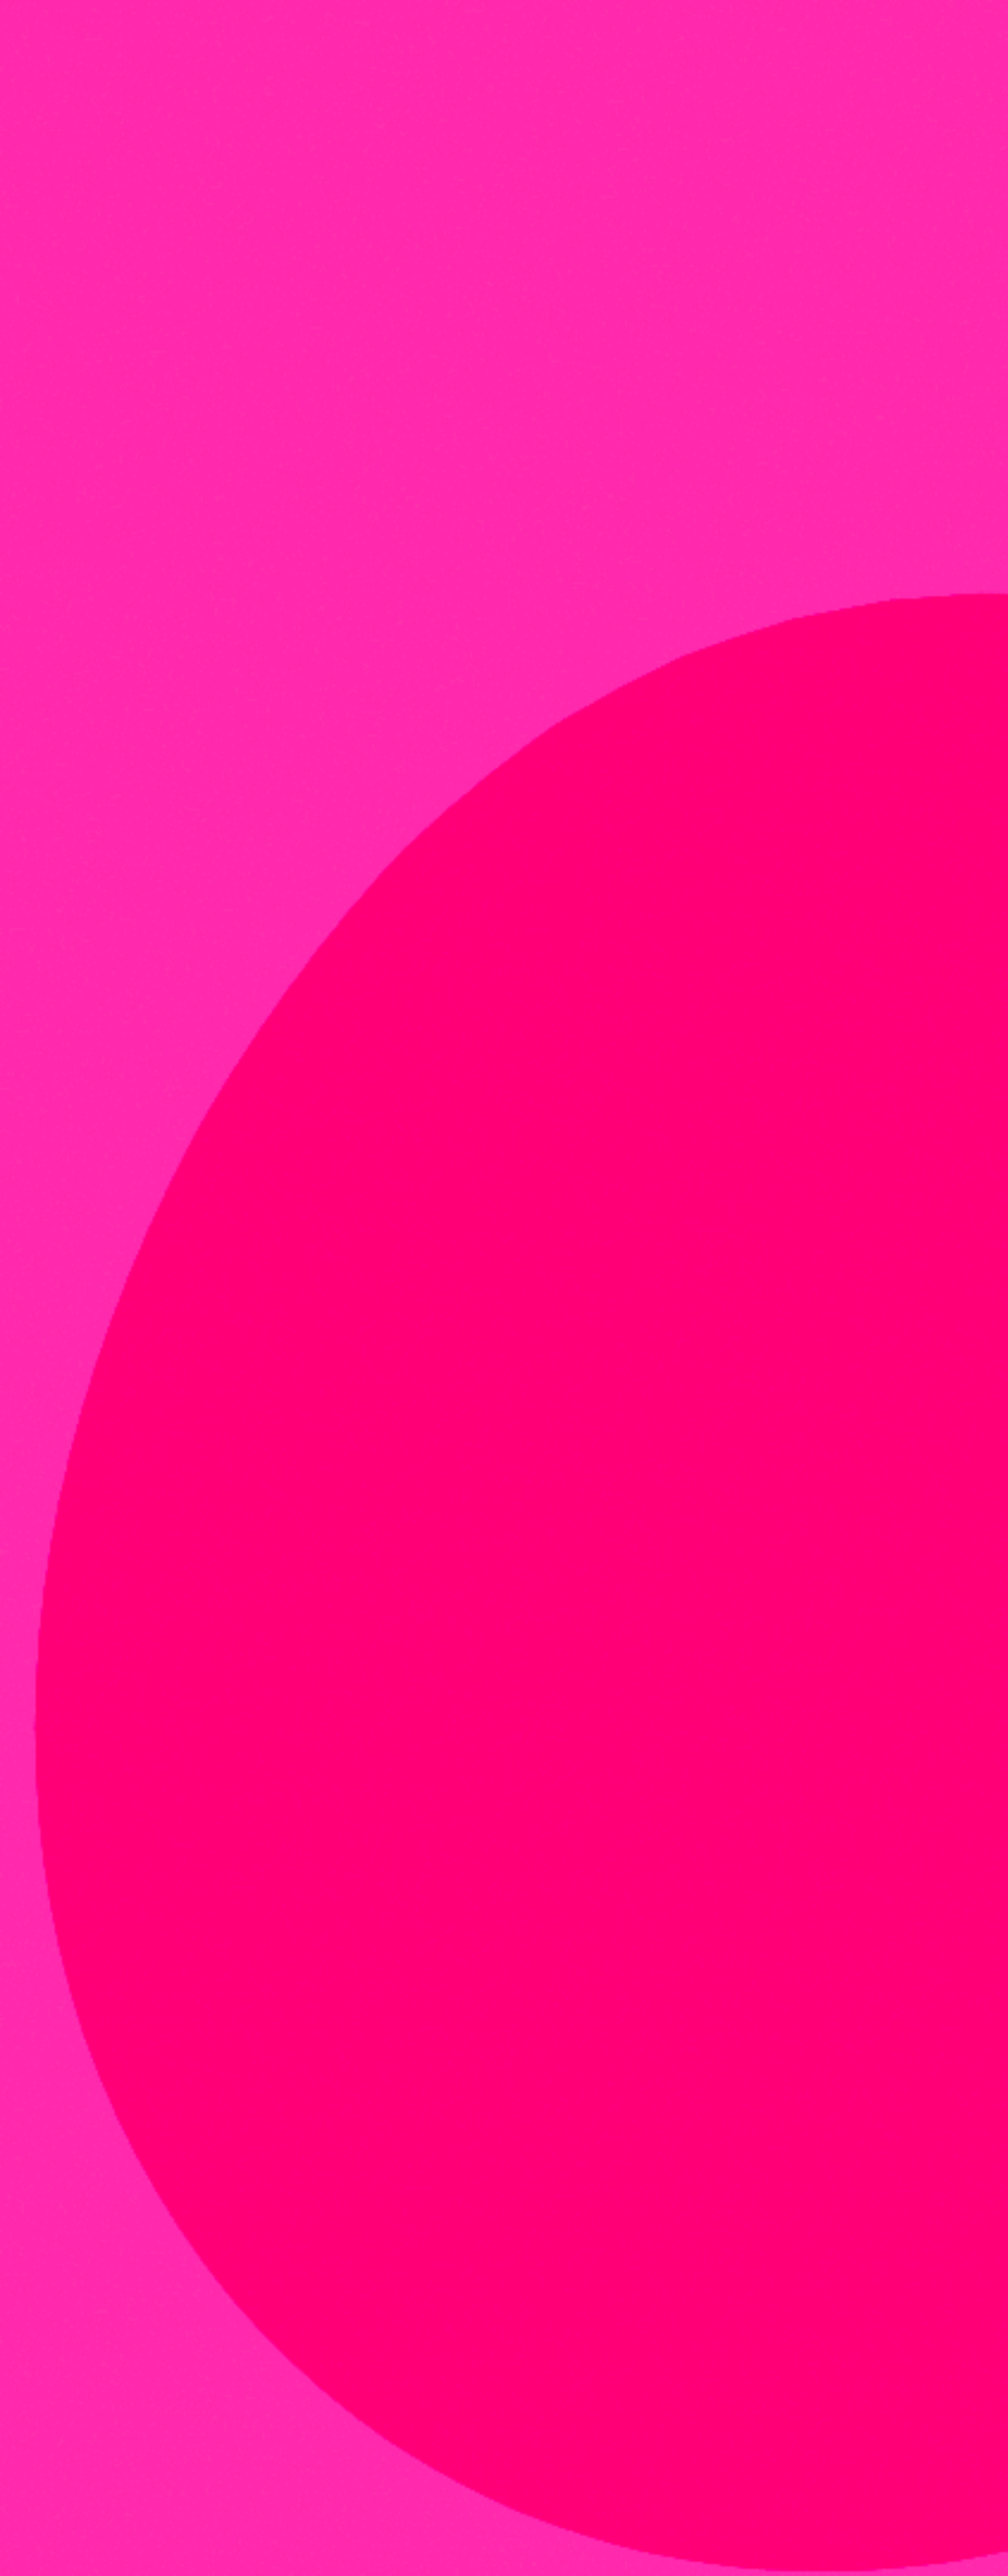

Web components made me out of HTML, CSS, and JavaScript! Do you like me? Please say you like me.

♥

My card heading is more awesomer

Web components made me too!Please like me instead! The other guy is a boring blue shade. I'm awesomer!

♥

```javascript
class Card extends HTMLElement {
    connectedCallback() {
        this.button = this.querySelector("button");

        // Do JS interaction things...
    }
}

window.customElements.define('the-card', Card);
```
